

Radio Host:

They say people who live in glass houses shouldn't throw stones, but my next guest could if he wanted to. He's Aaron from California Deluxe Windows--windows that are strong enough to WALK on-- and French doors strong enough to do pull-ups on! And with precision craftsmanship besides.

Welcome, Aaron....What do windows like that mean for homeowners?

Aaron:

Hi, [first name].

They mean getting the whole package....everything that's most important in a window—and significantly enhancing the value of your home.

The sturdy materials and masterful construction that go into our functional and beautiful windows translate into a LIFETIME of peace of mind and satisfaction. With glass that's 33% thicker than most windows....and steel-reinforced construction that holds its own over the years, you benefit from enhanced security.....AND can still enjoy all the daylight and views you want, from the comfort of your home.

Let our windows transform your home into a sanctuary----insulating you from outdoor noise, and heat and cold--the way other windows can't.... AND reducing high energy costs.....

And that's only the beginning of how California Deluxe Windows pay for themselves...

The biggest savings is all the on-going replacement, repairs, and maintenance you WON'T need.

Radio Host:

And the quality doesn't stop there, does it, Aaron?

Aaron:

Not by a long shot. We not only custom design and build windows in virtually any size, shape or style—including curved glass for a 180 degree view.....we also INSTALL them. In fact, from the first measurement to the final home inspection, you can rely on our skill and commitment. That's why each window is proudly signed by its craftsman.

Throw in the added conveniences of easy cleaning and built-in screens....plus the comfort of a life-time warranty to everything we've already mentioned, and you've got it ALL.

It's the real deal....the whole package. No off-the-shelf window will ever give you the kind of quality construction, security, long-term savings, convenience, and beauty that California Deluxe Windows offer.
